

## How “The Great Awakening” Came To Be?

- What if you found out TODAY that One Major Issue in your life was causing all the others?
- What if intersections of science, spirituality and a little known text pointed to a clear solution?
- What if you could take one step to enable Your Greatness, RIGHT NOW – to realize a life of miracles and abundance?
  - ✓ Lynn Pierson’s spiritual thriller “The Great Awakening” the press has described as “*The Da Vinci Code* meets *A Course in Miracles*,” reveals how to do just that.

“No one was more resistant to the simple idea of one cause and solution than me,” says author and empowerment coach Lynn Pierson. Like most people I once viewed my issues as too many and highly complicated. Ten years ago my life was a whirlwind of hard work and little sleep or fun. “*Sound familiar?*” I had a decent job but was barely able to pay the bills. I was unhappy, my marriage was on the edge, and I needed more time with my children.

I was constantly seeking the next cutting-edge and mind-bending answer. Although I’d been studying science and spirituality for years, it was *only* through the intersections with “A Course in Miracles” that I was provided with a solution. Over the following three months Miracles happened rapidly for me: I landed a new job and a \$60,000 per year raise. My relationships and marriage were transformed along with my perceptions. And, did I realize what it meant to be EMPOWERED!

Now I teach others, like you, through my writing and workshops. You are incredible and can grasp that truth and beauty, Right Now. I have people who have read my novel and experienced my workshops, tell me all about it -- change can happen for you too in a moment! I keep it fun and simple while showing you how to do just that. Realize the power of forgiveness. Remove the blocks to the awareness of love and your truest source of greatness!
